

Year 7 Curriculum Information 2025 - 2026

The school follows a two-week, 60 period timetable. Students normally have one piece of homework per night on which we would expect them to spend 40 minutes. Students sit exams in English, Maths and Science only in the summer term. Below you will find a summary of the main topics covered in Year 7, the name of the Head of Subject and an indication of the number of periods students have of each subject per fortnight.

English	Dr T Foster	7 periods
We have three key units: Morality, Different Voices and Gender. Within these we study a range of texts including pre-1914 and contemporary drama, Shakespeare, poetry and non-fiction writing. With a strong emphasis on creative work, students learn and practise the skills required for producing narratives, letters and leaflets. They learn about the Renaissance theatre and the language of drama. They begin to produce analytical writing about literature across poetry, prose and drama, focusing on the identification of writers' techniques. A culture of reading is created through bi-weekly library lessons, and grammar knowledge is developed through regular homework on this fundamental aspect of the subject.		
Maths	Mrs K Adams	7 periods
We reinforce numeracy and develop problem-solving skills while extending knowledge of algebra, geometry and probability. Students are introduced to the ideas of reasoning and proof.		
Science	Mrs R Bailey	7 periods
Combined Science is a two-year course which aims to develop practical skills, scientific knowledge and understanding to provide a solid foundation for further learning. Topics covered include lab safety, investigative skills, cells, solutions, forces, reproduction, acids and alkalis, and electricity. We also run a popular weekly Science Club.		
Geography	Mr B Day	3 periods
We study population and cities, rivers and flooding, the United Kingdom, local geography and map skills.		
History	Ms C Webb	3 periods
Students will learn about Medieval Realms: Britain, 1066-1500 through the key themes of power, belief and society. Students will develop the skills required for the effective study of History, such as the ability to recall factual material, assess the concepts of cause and consequence and change and continuity, and evaluate simple source material.		
Religious Studies	Mr J Hooper	3 periods
We study Islam and Christianity, investigating their key beliefs and practices as well as looking at their place in the world. All students complete a summer project looking at sacred spaces. Students also study an introductory Philosophy course which nurtures a spirit of open-ended and open-minded learning as we explore dilemmas, debates and thought experiments. Through discussion and storytelling, the students are encouraged to become rigorous thinkers and thoughtful listeners.		
French	Mme Sainsbury	8 periods across French, German and Spanish
After an initial introduction in the taster course in the first term of Year 7 using <i>Studio Express</i> , students will use <i>Dynamo 1</i> to use the present tense to talk and write about themselves and their family, school and free time. A variety of common regular and irregular verbs will be taught and students will be able to give simple opinions on their activities using a range of adjectives.		
German	Mr A Robinson	8 periods across French, German and Spanish
In the first term of Year 7, all students will have a taster course, in which they will learn to give basic information about themselves, key phonics and pronunciation rules, and have an introduction to German culture. Thereafter, those opting for German will study the Zoom Deutsch 1 course, including material on personal information, family, school life and hobbies. The grammatical aspects covered include genders, cases and the present tense.		

Spanish	Ms S Sobrado	8 periods across French, German and Spanish
In the first term of Year 7, all students will take a Spanish taster course, where they will learn to give basic information about themselves, key pronunciation rules, and receive an introduction to Spanish culture. After this, students who opt to continue with Spanish will explore topics such as family, personal and physical descriptions, school life, and hobbies. The grammatical areas covered include articles, nouns, adjectival agreement, and the present tense.		
Art	Mrs L Turner (interim)	3 periods
We explore a range of media including printmaking and clay within the themes of insects, pattern and architecture. In the autumn term they have a study visit to Wrest Park to support the architecture project.		
DT	Mr A Jones	3 periods
Students undertake three design modules that focus on developing their core design skills. They will learn to use Computer-Aided Design (CAD) software whilst also developing their hands on creative drawing skills using traditional techniques. They will also develop their practical skills in the workshop using a variety of tools and machinery.		
ICT	Miss E Ginns (interim)	2 periods
In Year 7 students will begin with an introduction to Microsoft TEAMS and associated applications, file organisation, use of email and internet safety and staying safe online. Students then move onto Python programming, spreadsheets, game making, creating digital graphics, computer ethics and the workings of a computer.		
Drama	Mrs E Marabese	3 periods
Students are introduced to a range of theatrical styles, genres and acting techniques, such as Mime and Commedia Dell' Arte alongside learning how to create atmospheres such as tension and suspense. Students also begin to explore text in performance and the wide range of theatrical skills needed for this.		
Music	Miss D Derry	3 periods
We work on a variety of composition and performance tasks that help to develop students' general skills as young musicians. This includes learning how to play the ukulele, learning how to play the 12-Bar Blues, song-writing and reading music. Theoretical knowledge is learned through practical tasks.		
PE	Mr A Higgins	2 periods
We follow a half-termly carousel programme of Gymnastics, Basketball, Strength and Conditioning, Swimming and Athletics (double block) which focus on the development of the fundamental movement patterns required within each activity, including and developing students' physical literacy.		
Games	Mr B Kirkpatrick	4 periods
Boys follow a programme of Rugby (autumn term), Football or Hockey (spring term) and Cricket, Athletics or Tennis (summer term); whilst the girls follow a programme of Hockey (autumn term), Netball (spring term) and Cricket, Athletics or Tennis (summer term). Students are grouped by ability and there is a focus on both individual and team skills, which are supported by a fundamental movement curriculum. In addition to this there are after school practices, and students are expected to be available for team selection throughout the week and on Saturdays.		
PSHE and RSE	Mrs S Muller	2 periods
In Year 7, students explore themes of family, friendship and belonging, learning how positive relationships contribute to happiness and wellbeing. They discuss respect, kindness and diversity, and learn how to stay safe online. The combination of tutor-led PSHE and RSE specialist lessons helps students make informed choices, respect difference and prepare for the next stage of their personal and social development.		

Mr H Hewlett
Deputy Head Academic
